ATTN: Document Control Desk
Washington, DC 20555

Gentlemen:

In the Matter of) Docket Nos. 50-390
Tennessee Valley Authority) 50-391

WATTS BAR NUCLEAR PLANT (WBN) - PROPOSED PHYSICAL SECURITY PLAN (PSP)
(TAC. NO. M63657)

Pursuant to 10 CFR 50.34(c), the enclosure provides a revised proposed PSP (Revision O-K) which supersedes all previous NRC security commitments and the previously proposed PSP (Revision O-J) submitted by letter dated June 17, 1992, for WBN. The upgraded proposed PSP is based on a conceptual design structured to meet the guidelines of NUREG-0908. As the security system upgrade is installed, required supplemental or replacement pages to the plan will be forwarded for your review.

Enclosed are six copies (Nos. 6 through 11) assigned to NRC. The information is being sent by registered mail, and the signed receipt will signify that you have received this information and acknowledged that it contains safeguards material to be protected in accordance with 10 CFR 73.21. This receipt will also be taken as verification to TVA that the superseded WBN PSP has been destroyed and replaced by the enclosed.

If you have any questions, please telephone Steve D. Gilley of my staff at (615) 751-7667.

Sincerely,

for Mark J. Burzynski
Manager
Nuclear Licensing and Regulatory Affairs

Enclosure: Copies 6-9
